## SUMMARY OF QUALIFICATIONS

With a solid foundation in art, print & design, multimedia and photography, I am a versed senior graphic designer with an expanded expertise as web designer and webmaster. Years of experience in 3D & computer animation, including working as animation director next to doing architectural, interior, furniture and technical visualization have broadened my field of dexterity. Recently I've produced several corporate video films, from concept to end product, including design, storyboard, managing and film directing which allowed me to use a wide array of my skill set which is based on a strong background in art & design and management. At present time I am interested in leveraging experiences and abilities with new and challenging consultant, design and production work and servicing with excellent products.
